

# Preparing Grant and Funding Proposals

# Agenda

- Where do you start?
- What information do funders need?
- Basic components of a proposal
- Most common mistakes on applications
- Tips for proposal success
- Grants and where to find them

# So, you've found an opportunity for funding...

- Funding Agency information
- Grant contact information
- Contact funding agency to find out/confirm:
  - Deadlines
  - Application Process
    - Prerequisites
    - Reporting
    - Rating criteria

# Where do you start? Have a plan!

Have a plan in place will help you:

- Have quicker reaction time to tight grant deadlines
- See more grant opportunities
- Fit grants to your priority projects

PROACTIVE rather than REACTIVE

# Building Partnerships

- Can benefit the success of the application
- Who in the community/region would benefit from being a partner
- Partners can be other municipalities and/or community groups
- Approach potential partners with your efforts, why they can benefit, and what they will contribute
- Gain commitment
- Keep them involved.

# Information for Funders

- WHO?
- WHAT?
- WHEN?
- WHERE?
- WHY?
- HOW?

# Basic Components of a Proposal

Sections of a grant proposal: \_\_\_\_\_

- 1) Cover letter
- 2) Abstract
- 3) Table of Contents
- 4) Introduction
- 5) Problem statement
- 6) Project Description- Objectives, design, monitoring and evaluation
- 7) Budget and Future funding
- 8) Appendix- i.e. pictures

# Cover Letter

- Provide a very brief introduction to you and your project
- State the amount of funding that you are applying for and from what fund
- Can refer to earlier discussions had with the funding agency

*Always remember to be clear and concise!*

# Proposal Abstract

- The abstract summarizes the entire proposal.
- It must clearly outline the:
  - problem
  - solution
  - funding requirements
  - organization (community) and its expertise

# Table of Contents (TOC)

- A reference page used to locate key areas of the proposal
- Should include the exact title of a sections and on what page it can be located
- In some cases, you can include hyperlinks which automatically take to you the requested section

# Introduction:

## The 'Who'

- Brief background of your organization
- Who does your organization represents?
- Expertise and experience of the organization and/or individuals working on the specific project

# Problem Statement:

## The 'Why'

- States the problem
- Use examples to prove the “why”
- Should state:
  - who will be affected
  - costs of inaction
  - what (if anything) is being done now

*Stress the importance of addressing the problem!*

# Project Description:

## The 'How'

Goal: Desired overall outcome (general)

Objective:

- Identify the 'solution(s)' to the problem
- How do you propose to fix/address the problem?
- What hasn't worked?
- How does the proposed solution(s) complement what has already or is currently being done?
- Timeframe

# Project Description:

## The 'How'

### Design/Method:

- Details how you plan to meet your objectives e.g. action items
- Timeline(s)
- How you will measure whether you've met your objectives? E.g. baseline – targets/ benchmarks /milestones

# Project Description:

## The 'How'

### More project details:

- Who will be responsible for managing the project?
- Who will work on which action items?  
What are their qualifications?
- Accountability measures
- Budget

# Budget and Future Funding Opportunities

- Overall amount required to complete the project
- Detailed costs per action item/portion of the project
- Overview of other financial and in-kind contributions
- Amount requested from funder
- Explanation of requested amount
- Add estimates and RFPs

# Budget and Future Funding Opportunities

	Cost	In Kind Contribution	Other Funding	This specific funder
Phase #1	\$XXX.XX	...	\$XXXX.XX	...
Phase #2	\$XXX.XXX	...	.....	\$XXX.XXX
Etc.				

- Explanation of amounts requested

# Appendices

- Estimates
- Pictures
- Letters of Support
- .....

# Common Mistakes- identified by Funders

- Not asking questions
- Sending in incomplete applications
- Sending in late applications- past the deadline
- Forgetting to state the who, what, when, where, why and how of your project.
- Not researching the grant/funding information

# Barriers of Funding Opportunities

- Timelines
- Unclear instruction
- Not enough joint focused grants
- Min. and Max. caps not suitable for small projects
- Resources expended to apply for funding
- Requisites i.e. quotes, feasibility studies
- Rely heavily on grants to remain sustainable (core funding)
- Hard to make contact
- Technical difficulties – online application crashes
- No main resource to find funding
- Some applications don't allow for Box addresses

# Tips for Proposal Success

- Be clear and concise
- Research funding agencies and grant/funds applying for thoroughly
- Make sure you know whether grants can be stacked
- Have a back up plan if you are contemplating stacking grants
- Use the 'language' of the funding agency
- Ask questions
- Request successful applications from previous years (if applicable)
- Document community and other support where applicable
- Work together

# Tips for Proposal Success

- Have someone review your draft.
- Don't wait until the last minute to begin planning or proposal writing
- Don't abbreviate terms
- Have support documents (pictures, estimates)
- An incomplete applications is always better than no application if you have time constraints
- Find out why your application was denied
- Ask for successful applications for reference
- Include something from the heart – testimonials
