

Wilcox Strategic Planning Committee

The Wilcox Strategic Planning Committee is comprised of the Village of Wilcox, the Hamlet of Gray, the RMs of Bratt's Lake #129 and Lajord #128, St. Augustine Elementary School, and Athol Murray College of Notre Dame. They formed in 2009 to ensure that a sufficient number of students enrolled in St. Augustine Elementary School after its reemergence and to capitalize on the potential pool of resources that would result from a larger student base. The group was interested in identifying shared issues, goals and priorities for the area and in developing practices and tools to support each other in planning for the area. The Committee realizes that by collaborating efforts and working together, they can easily solve issues and create better opportunities for their residents and their communities.

Vision

"We are a small progressive rural community that offers a safe and supportive environment for families of all ages"

Mission

"We offer and value world class faith-based elementary and secondary education. We provide diverse opportunities for local employment and affordable options for families and business growth. We have easy access to all major transportation routes and are close to urban centers with recreational and cultural facilities."

In June of 2010, the group completed a Strategic Plan, identifying Housing, Infrastructure, Education, Landfills and Municipal Services as their key priorities.

The Wilcox Strategic Planning Committee will continue to work together for the long term betterment of their community. The members will continue to work towards each goal building a stronger partnership and opening the doors to new opportunities along the way. MCDP will

continue to provide efficient and relevant services to the Wilcox Strategic Planning Committee for the group to successfully accomplish their objectives.
